PRASHANT RAO

Frontend Developer | React & Angular Specialist | Web Accessibility & Agile

Hyderabad, Telangana | prashantrao744@gmail.com | +91-9111750038 | linkedin.com/in/prashant-rao-8088771b3

SUMMARY

Frontend Developer with 5 years of experience developing scalable, accessible enterprise web applications with React JS, Angular, TypeScript, and Node.js. Led the delivery of web application UI, achieving a 70% decrease in UI defects through the development of reusable, modular components. Received the Accenture Celebrates Excellence award for significant contributions to 6+ enterprise projects; applies AI-assisted engineering and follows web accessibility standards (WCAG 2.1 AA).

EXPERIENCE

Custom Software Engineer Analyst — Accenture

Jan 2024 – Present | Hyderabad, Telangana

- Develop and maintain enterprise web applications using Angular and React, with TypeScript, JavaScript, HTML5, and CSS3.
- Build reusable components, shared UI modules, and modular frontend architecture to improve maintainability and consistency across enterprise applications.
- Implement Angular application workflows using routing, form validation, dynamic components, services, and API integrations.
- Integrate RESTful APIs and collaborate with backend teams on data contracts, error handling, and end-to-end feature integration.
- Contribute to performance optimization through lazy loading, component/state optimization, and API request tuning.
- Contribute to GenAI-powered conversational functionality by integrating front-end experiences with AI APIs.
- Use GitHub Copilot and Claude to assist code generation, debugging, refactoring, and development workflows.
- Collaborate with UX/UI, QA, backend, product, and business teams across requirements for analysis, development, testing, and production support.

Associate Software Engineer — Accenture

Jan 2022 – Jan 2024 | Hyderabad, Telangana

- Developed and maintained React-based enterprise web interfaces, translating UI designs and business requirements into responsive, reusable components.
- Built shared UI components and modular frontend features to improve consistency and reduce duplicated implementation across application screens.
- Integrated frontend components with REST APIs, handling data rendering, loading/error states, and interactions with backend services.
- Implemented responsive layouts and cross-browser UI behavior using JavaScript, TypeScript, HTML5, CSS3, and modern CSS techniques.
- Collaborated with UX/UI designers, backend developers, QA, and business stakeholders to clarify requirements, resolve defects, and deliver features through Agile sprints.

SKILLS

Frontend: React, Angular, Next.Js, JavaScript, TypeScript, HTML5, SCSS/CSS, Tailwind CSS, Bootstrap, Material UI, PWA

State / Backend / Testing: Redux, Zustand, Node.js, MySQL, GraphQL, Jest

Practices & Tools: WCAG 2.1 AA/A Accessibility, Responsive Design, Git, CI/CD, Figma, DRY and SOLID principle, Micro Frontend

EDUCATION

Master of Computer Application — IPS Academy, School of Computers, Indore, MP
